

Ruggedized Laptop

Overview

Harsh conditions can wreak havoc on crime scenes. Investigative teams need tools that can withstand elements like drops, shocks, vibrations, and extreme temperatures, while reliably extracting and reviewing the digital data they need to further their investigations. Waiting for critical insights that could break a case is simply not an option.

The Ruggedized Laptop features a Panasonic Toughbook loaded with UFED Ultimate software and complimentary digital forensic accessories that allow users to perform data extraction, decoding and analysis anywhere. This fully-portable kit comes in a purpose-built ruggedized case to ensure work flows seamlessly anywhere the investigation takes you.

Digital intelligence for a safer world

Digital data plays an increasingly important role in investigations and operations of all kinds. Making data accessible, collaborative and actionable is what Cellebrite does best. As the global leader in digital intelligence, and with more than 60,000 licenses deployed in 150 countries, we provide law enforcement, military and intelligence, and enterprise customers with the most complete, industry-proven range of solutions for digital forensics and digital analytics solutions in the field, in the lab and everywhere in between. By enabling access, sharing and analysis of digital data from mobile devices, social media, cloud, computer and other sources, Cellebrite products, solutions, services and training help customers build the strongest cases quickly, even in the most complex situations. As a result, Cellebrite is the preferred one-stop shop for digital intelligence solutions that make a safer world more possible every day.
