

PRODUCT OVERVIEW

Your end-to-end evidence & workflow management solution

Evidence management today relies on siloed manual processes and the ability to store and share via physical removable media. Law enforcement agencies continue to struggle to meet their data management compliance while also lacking the infrastructure to store, manage and share evidence efficiently and securely. Data consumers usually face insufficient hardware specs and a poor user experience for the review and collaboration of investigation data.

Cellebrite Guardian solves these issues for your agency with one end-to-end solution.

MANAGE YOUR EVIDENCE

Safely, securely, and centrally, while overcoming drains on budgets and resources from hardware costs.

UNMATCHED REVIEW CAPABILITIES

The only system with immediate review of UFDR reports directly in your browser – no downloads needed.

HIGHLY SECURE STORAGE

Unlimited scale for centralized data and procedure management.

SHARE EVIDENCE AND REPORTS

Instantly, easily, and appropriately while maintaining full auditability and chain of custody to keep evidence clean and court-ready.

CLOUD-BASED SYSTEM

Secure access from anywhere, on any device, at any time.

ONE END-TO-END SOLUTION

Simple and intuitive, you already know how to use it.

Cellebrite Guardian is a simple, secure and scalable cloud-based solution for evidence and workflow management. Born in the minds of police officers and crime lab forensic analysts, tested in the courts, and tweaked by necessity, Cellebrite Guardian was built to exceed courtroom and compliance requirements while matching your workflow.

From intake to final report, Cellebrite Guardian provides you with unmatched review capabilities and enables you to manage your evidence and investigative workflow – wherever you are.

EVIDENCE MANAGEMENT	SHARING	REVIEW
