

As the volume of devices and data continues to increase, forensic labs are facing unprecedented challenges in processing evidence efficiently. The growing workload, coupled with limited resources, puts strain on examiners and hampers investigative workflows.

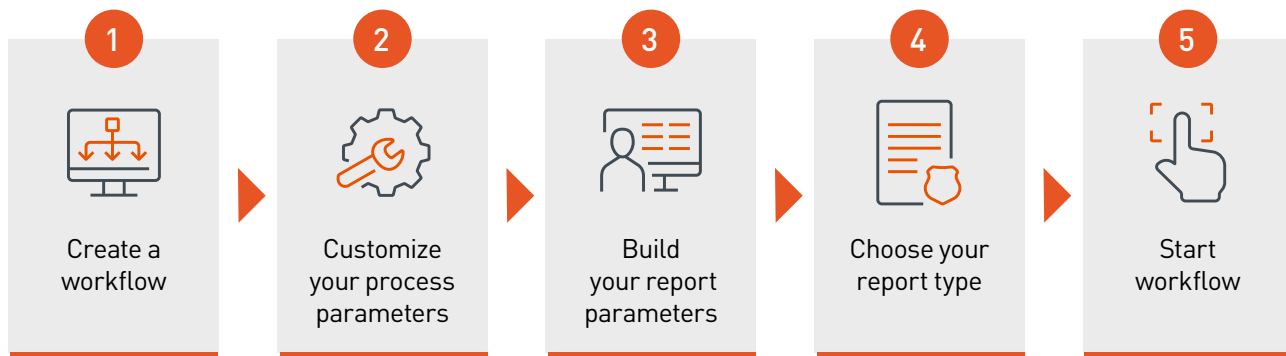

With Cellebrite Autonomy, you can now scale-up your investigations. Process evidence quickly, accurately and efficiently to reduce workload. Run multiple automated processes simultaneously on each computing unit to supercharge your ability to process devices and locate evidence. By reducing manual labor and backlogs, Cellebrite Autonomy enables you to push cases forward faster and achieve timely outcomes.

Why choose Autonomy?

- **Efficiency Redefined:** Cellebrite Autonomy enables you to automatically process digital evidence quickly and efficiently, reducing backlog and optimizing resource utilization.
- **Precision and Accuracy:** By automating workflows and leveraging advanced algorithms, Cellebrite Autonomy ensures precise and accurate results, minimizing the risk of human error.
- **Future-Proof Solutions:** Stay ahead of the curve with Cellebrite Autonomy's commitment to innovation, ensuring that you always have access to the latest tools and techniques in digital forensics.
- **Data Integrity:** Cellebrite Autonomy prioritizes data integrity, safeguarding against unauthorized access or alteration during the examination process, maintaining the integrity of evidence.

How does it work?

Benefits

Streamlined Workflows:

Autonomy automates repetitive tasks and processes, allowing examiners to focus on critical aspects of the investigation.

Enhanced Data Privacy:

With robust security measures in place, Autonomy ensures the confidentiality and integrity of sensitive information throughout the investigative process.

Scalability and Flexibility:

Autonomy's scalable architecture allows for seamless integration with existing systems and workflows, accommodating the evolving needs of forensic labs.

Maximized Resource Utilization:

Autonomy optimizes the utilization of personnel and resources, enabling forensic labs to achieve more with less and drive operational efficiency.

Hear what our customers are saying

"Cellebrite Autonomy is a set and forget. You need to flood the market with this solution, get everybody addicted."

- Examiner - Mid-sized Agency

"Cellebrite Inseyets solved our capacity problem for the lab."
