## What does the Cellebrite Inseyets offering include?

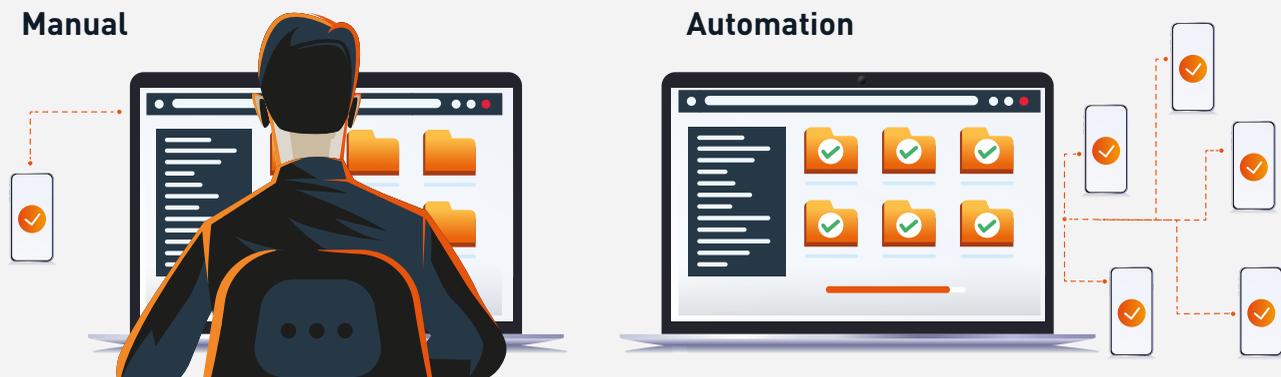

- **Cellebrite Inseyets.UFED** - Access devices previously unreachable and extract the FFS, encrypted and containerized data effortlessly.
- **Cellebrite Inseyets.PA** - Process and analyze evidence from the broadest range of apps and sources, easily enrich your cases and validate your evidence with powerful deep dive tools.
- **Streamlined workflows** - Simplify your workflow from extraction to UFDR in a few simple clicks.
- **Cellebrite Autonomy** - (CLAS) Scale-up investigations and run multiple automated processes quickly and accurately at once.
- **Quick View** - Get a glimpse into the device before processing it, and easily identify the device priority and relevance.
- **Triage** - Leverage customizable search criteria to quickly flag relevant devices and significantly improve device prioritization.
- **Cloud extractions** - Extract, preserve and analyze evidence from cloud-based sources within minutes.
- **Commander** - Remotely manage permissions and capabilities for all users, including software updates and license updates.

## What are the new Cellebrite Inseyets capabilities and features?

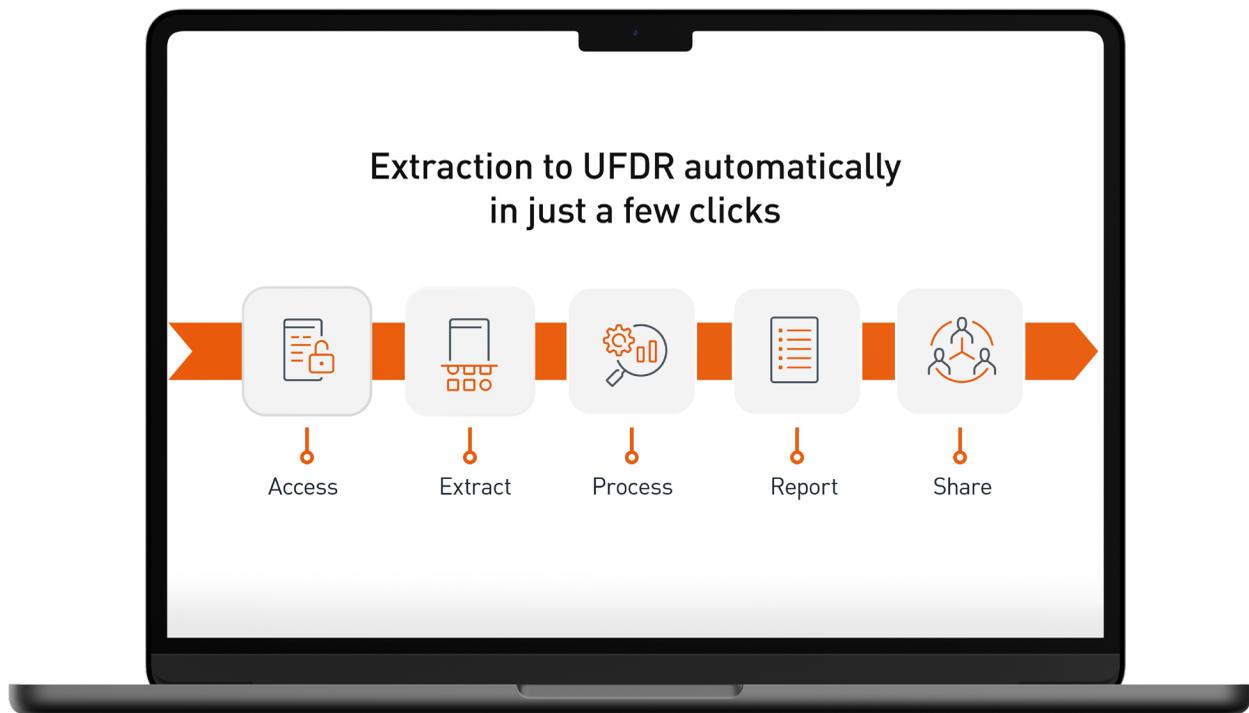

### Cellebrite Autonomy:

Scale-up investigations, process quickly, accurately and efficiently to reduce the workload.

Run multiple automated processes at once on each computing unit and supercharge your ability to process devices and evidence. Reduce both manual labor and backlogs and start pushing cases forward faster.

### Cellebrite Inseyets Streamline:

## Cellebrite Inseyets Quick View:

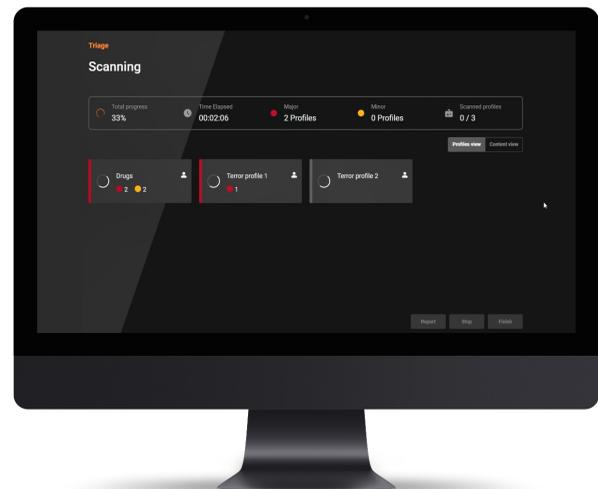

Prioritize evidence and quickly acquire incriminating evidence (e.g., location and account data) to support arrest warrants and field interviews

-  Determine if a deeper investigation is needed
-  Verify the person's identity
-  Expedite the use of additional investigative tools

## Cellebrite Inseyets Triage:

Leverage customizable search criteria to quickly flag relevant devices and significantly improve device prioritization, reduce processing time and increase meaningful data extractions.

1. On-the-spot intelligence to acquire incriminating evidence (location, account and application data) to support arrest warrants and/or field interviews.
2. Quickly flag relevant devices and data that meet customizable investigative criteria.
3. Utilized for mobile device prioritization and managing lab intake more effectively.

## Cellebrite Inseyets Share & Review:

Simplify Processes & Amplify Impact Together

1. Share evidence across all stakeholders in real-time, translating reports into actionable evidence
2. Review evidence instantly and directly in-browser for increased efficiency
3. Simplified data distribution and collaboration
4. Secure and user-friendly for immediate impact in case resolution

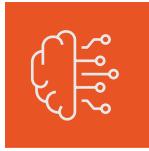

## The Cellebrite Inseyets Benefits

**More Access** - Expedite access of meaningful data to find key evidence and make cases stronger.

**Richer Data** - Analyze evidence with precision and leverage AI, cloud and other sources to swiftly spot artifacts and valuable insights for high-impact reports.

**Reveal Key Evidence** - Analyze evidence with precision and leverage AI, cloud and other sources to swiftly spot artifacts and valuable insights for high-impact reports.

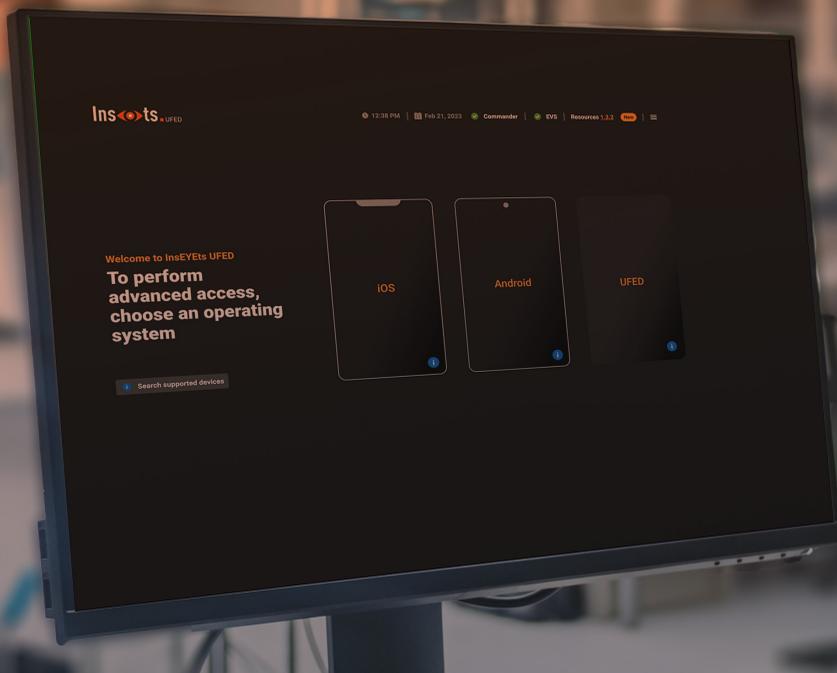

**Examination Made Accessible** - Enables every relevant personnel to effortlessly access previously inaccessible evidence and identify critical evidence.

**Work More Efficiently** - Prioritize and Streamline workflows and processes to expedite time to justice.
