Accelerating Justice with Impactful, Scalable Learning and Expertise

Cellebrite Training equips professionals with the tools, knowledge and strategies to efficiently drive impactful case resolutions—ensuring justice is served with speed and precision.

www.cellebrite.com/training

Why Cellebrite Training?

Our mission is to empower professionals using Cellebrite's solutions to maximize their impact—helping them achieve their missions confidently and efficiently.

THE CHALLENGE

Digital investigations are complex, with rapidly evolving technology. Professionals need continuous education and certifications to stay ahead and uncover the truth.

THE SOLUTION

Cellebrite's structured learning paths take professionals from foundational skills to advanced expertise, certifications, and continuous learning—keeping them ahead in digital forensics.

Join thousands of professionals making an impact in digital forensics.

115,000+

Trusted by forensic professionals worldwide to sharpen expertise and stay ahead in digital investigations.

40,000+

Globally recognized certifications that boost careers and validate expertise in digital forensics.

Your Expert Pathway to Digital Forensics

Cellebrite Training delivers a scalable, digital ecosystem that equips professionals with the skills, confidence, and credentials to drive justice forward.

Learn The Basics: Learning Hubs

Quickly build skills and maximize Cellebrite tools with on-demand learning resources.

Deepen Your Skills: Mastery

Advance your expertise with immersive, blended learning—combining pre-work, live instructor-led sessions (In-Person or Virtual), or self-paced content.

Gain Recognition: Certification

Earn globally recognized certifications to validate your expertise, enhance career growth, and strengthen investigative skills.

Maintain Expertise: Recertifications

Stay ahead of evolving technology with ongoing education and recertifications—ensuring you uncover the truth with confidence.

Learn the Basics: Learning Hubs

Master Cellebrite tools with on-demand tutorials, expert guidance, and practical insights—available whenever you need them.

Some courses include pre-work to help you build foundational knowledge before hands-on training. Expect videos, documents, and interactive modules—details are provided upon enrollment.

Cellebrite Mobile Forensics Fundamentals (CMFF)

Level: Entry **Length:** 2 Days (14 Hours) **Delivery:** In-Person, Virtual, Self-Paced
Solutions: Physical Analyzer, UFED

This course introduces digital forensics fundamentals, covering mobile networks, Android/iOS file systems, extraction methods, NAND memory, and evidence handling for legal proceedings.

Cellebrite Reader

Level: Entry **Length:** 1 Days (7 Hours) **Delivery:** In-Person, Virtual, Self-Paced
Solutions: Reader, Physical Analyzer

This course introduces Cellebrite Reader, a free tool that helps investigators review UFED reports, search data, tag evidence, and generate case reports.

Self-Paced Available In: English, Spanish, Portuguese, German, French

Master Advanced Forensic Analysis with Inseyets

Cellebrite Certified Operator for Inseyets (CCO Inseyets)

Level: Intermediate **Length:** 2 Days (14 Hours) **Delivery:** In-Person, Virtual
Solutions: Inseyets UFED, Inseyets Physical Analyzer, Premium

Master Inseyets UFED to unlock, decrypt, and extract mobile data. Learn advanced forensic techniques, including locked-device methods (BFU & AFU) and UFDR reporting to enhance investigations.

Cellebrite Certified Physical Analyst for Inseyets (CCPA Inseyets)

Level: Advanced **Length:** 3 Days (21 Hours) **Delivery:** In-Person, Virtual
Solutions: Inseyets UFED, Inseyets Physical Analyzer, Reader, Cloud

Master Inseyets Physical Analyzer to analyze forensic data with precision. Learn case management, advanced Android/iOS extractions, recover deleted data with SQLite, and apply forensic validation techniques for accuracy.

Cellebrite Advanced Smartphone Analysis with Inseyets (CASA Inseyets)

Level: Advanced **Length:** 5 Days (35 Hours) **Delivery:** In-Person, Virtual
Solutions: Inseyets Physical Analyzer

Master Inseyets Physical Analyzer and open-source tools to recover and decode app data. Gain expertise in Python scripting, iOS/Android app analysis, and pattern-of-life forensics to strengthen digital investigations.

Master Investigative Analytics with Pathfinder

Cellebrite Pathfinder Training (CPT)

Level: Entry **Length:** 2 Days (14 Hours) **Delivery:** In-Person, Virtual, Self-Paced
Solutions: Pathfinder

Harness AI-powered insights with Cellebrite Pathfinder to analyze digital and cloud-based evidence. Gain expertise in case management, visualization techniques, and forensic analytics to enhance investigations and uncover critical intelligence faster.

Also Available In: German, French, Spanish, Portuguese,

Master Computer Forensics

Cellebrite Collector and Inspector Operator (CCIO)

Level: Entry **Length:** 4 Days (28 Hours) **Delivery:** In-Person, Virtual

Solutions: Collector, Inspector

Gain foundational skills in digital forensic investigations with Cellebrite Digital Collector and Inspector. Develop hands-on expertise through real-world, scenario-based training in evidence collection and analysis.

Cellebrite Apple Forensic Fundamentals (CAFF)

Level: Entry **Length:** 4 Days (28 Hours) **Delivery:** In-Person, Virtual, Self-Paced

Solutions: Collector, Inspector

Learn macOS and iOS forensic analysis with Cellebrite Digital Collector and Inspector. Triage OS and file system artifacts, examine HFS+ and APFS structures, and analyze network activity in live investigations.

Cellebrite Apple Intermediate Forensics (CAIF)

Level: Intermediate **Length:** 3 Days (21 Hours) **Delivery:** In-Person, Virtual, Self-Paced

Solutions: Inspector

Advance your macOS forensic skills with Cellebrite Inspector. Analyze log files, Apple Mail, GUID Partition Tables, and Time Machine backups using real-world case data.

Cellebrite Apple Advanced Forensics (CAAF)

Level: Advanced **Length:** 3 Days (21 Hours) **Delivery:** In-Person, Virtual

Solutions: Inspector

Deepen your macOS and iOS forensic expertise with Cellebrite Inspector. Recover deleted artifacts, analyze extended file systems, extract passwords, and investigate RAID structures in advanced cases.

Master Forensic Recovery & Repair Techniques

Cellebrite Chip-Off Forensics Training (CCOF)

Level: Expert **Length:** 5 Days (35 Hours) **Delivery:** In-Person

Solutions: UFED, Physical Analyzer

Gain hands-on experience in chip-off extraction techniques. Learn milling, IR heat, board polishing, and flash memory analysis (NAND/NOR, eMMC/eMCP, UFS) while mastering forensic tools and methodologies.

Certified Evidence Repair Technician - Forensic (CERT-F)

Level: Expert **Length:** 5 Days (35 Hours) **Delivery:** In-Person

Solutions: UFED, Physical Analyzer

Equip investigators with expert-level skills in mobile device repair for forensically sound data extractions. Participants will practice disassembly, reassembly, heat application, and precision soldering techniques to restore USB flash drives, data ports, LCD screens, power buttons, and more through hands-on training.

Training Kits: Essential Tools for Hands-On Learning

Each training course includes an optional specialized kit, providing investigators with essential tools for forensic recovery and repair at their home base. Additional costs apply.

CCOF Kit Includes:

- ✦ Chip-off extraction tools (milling, IR heat, polishing)
- ✦ Flash memory adapters (NAND/NOR, eMMC/eMCP, UFS)
- ✦ Protective workspace setup

CERT-F Kit Includes:

- ✦ Precision soldering & heat application tools
- ✦ USB flash drive & data port repair accessories
- ✦ LCD screen & power button replacement set

Gain Recognition: Certifications

Cellebrite's highest certification level, designed for professionals who have mastered both foundational and advanced training. These certifications validate real-world investigative skills, requiring candidates to demonstrate expertise in forensic extractions, data analysis, and case reporting.

& Advance
Your Career ▶**

Recertification is required
every 2 years. See the
certification page for details.

Cellebrite Certified Mobile Examiner (CCME)

The CCME is a globally recognized certification in mobile forensics. It validates an investigator's expertise in using Cellebrite's Inseyets UFED and Physical Analyzer to extract, analyze, and report digital evidence in a legally defensible manner.

Track:

- Cellebrite Certified Operator (CCO) for Inseyets
- Cellebrite Certified Physical Analyst (CCPA) for Inseyets
- Cellebrite Advanced Smartphone Analysis (CASA) with Inseyets

Exam:

CCME Practical and Exam
(4-Hour Preparation
Workshop Included)

Cellebrite Certified Recovery Specialist (CCRS)

The CCRS certification validates expertise in advanced forensic recovery techniques. Candidates must demonstrate proficiency in extracting and analyzing data from encrypted, damaged, or inaccessible digital devices—including smart devices, GPS units, drones, and IoT technologies.

Track:

- Cellebrite Certified Operator (CCO Inseyets) for Inseyets
- Cellebrite Chip Off Forensics (CCOF)
- Cellebrite Evidence Recovery Technician – Forensics (CERT-F)

Exam:

CCRS Practical and Exam

Maintain Expertise: Recertification

Maintain Certification & Stay Ahead

Keep your expertise current with Cellebrite's recertification program. Whether renewing a legacy certification or maintaining your Inseyets credentials, these courses provide essential updates on the latest UFED & PA features, forensic techniques, and workflow enhancements—ensuring you stay ahead in digital forensics.

CCO Inseyets Recertification

This four-hour recertification ensures CCO-certified professionals stay up to date with the latest Inseyets UFED features. Participants will refine advanced extraction techniques for locked/unlocked iOS & Android devices (BFU & AFU), optimize workflow efficiency using Triage, Quick View, Streamline, and Autonomy, and apply post-extraction best practices in the Inseyets C2C platform.

CCPA Inseyets Recertification

This four-hour recertification ensures CCPA-certified professionals stay current with the latest Inseyets PA features. Participants will explore advanced decoding tools for media origins, classifications, cryptocurrency, and geolocation, while also enhancing case management, dashboard updates, and cloud data processing. The course introduces Commander, an add-on to the Inseyets suite, expanding investigative capabilities.

Join Cellebrite's Elite Trainers & Make an Impact in Digital Forensics

Cellebrite is seeking top digital forensics professionals to train the next generation of digital forensics professionals. As a contract trainer, you'll share your expertise in forensic acquisition, analysis, and legal processes—equipping professionals with the skills to uncover the truth and drive justice forward.

Your impact matters. Help professionals solve cases, protect communities, and advance the field of digital investigations.

Master Digital Investigations: Training Designed for Your Role

The Examiner's Path: Mastering Digital Forensics

Forensic Examiners extract, analyze, and preserve digital evidence to support legal investigations. They play a key role in uncovering critical data, ensuring evidentiary integrity, and presenting findings in court. Cellebrite Training equips them with advanced forensic techniques to tackle complex cases.

The Investigator's Path: Enhancing Case Efficiency & Collaboration

Investigators are responsible for identifying, analyzing, and managing digital evidence to build stronger cases and drive successful outcomes. Cellebrite Training provides the skills and tools needed to quickly surface critical data, streamline workflows, and collaborate across teams.

The Analyst's Path: Turning Digital Data into Actionable Intelligence

Digital Analysts interpret and visualize forensic data to uncover case insights. They analyze large datasets, reconstruct digital activity, and ensure data integrity. Cellebrite Training provides the tools to process and communicate digital intelligence effectively.

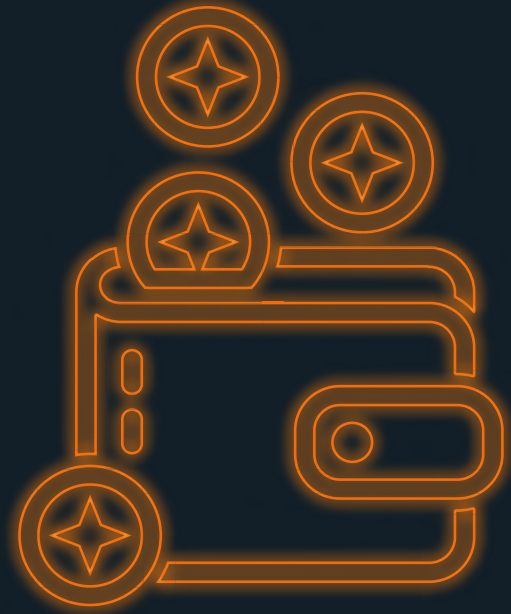

Level	Level Summary	Examiner Path	Investigator Path	Analyst Path
Entry-Level	Build foundational skills with entry-level tools and workflows.	CMFF (UFED, PA), Reader	Reader, CMFF (Reader, UFED, PA)	Reader, CAFF (Reader, Inspector)
Intermediate	Expand core capabilities with operator-level training.	CCO Inseyets (Inseyets UFED, PA)	CCO Inseyets (Inseyets UFED, PA)	CPT, CAIF (Pathfinder, Inspector, Collector)
Advanced	Master advanced analysis techniques and investigative workflows.	CCPA Inseyets, CASA Inseyets (Inseyets PA, Smart Search)	CPT, CASA Inseyets (Pathfinder, Inseyets PA)	CAAF, CASA Inseyets (Inspector, Inseyets PA)
Expert	Develop expert-level forensic recovery and hardware-based extractions.	CCOF, CERT-F (UFED, PA)	Advanced CASA Inseyets (Inseyets PA)	CCOF (UFED, PA)
Certification	Validate your expertise with globally recognized certifications.	CCME	CCME	CCME or CCRS

Cellebrite Training Wallet

Flexible, Scalable, and Budget-Friendly Training Access

The Cellebrite Training Wallet provides law enforcement and federal agencies with a smart, flexible way to manage training budgets. Purchase training credits upfront and use them as needed to enroll in In-Person, Virtual, or Self-Paced courses throughout the year.

Why Choose the Training Wallet?

- ✦ **Maximize Your Training Budget:**
Buy credits upfront and use them at your convenience.
- ✦ **Flexible Learning Options:**
Mix and match In-Person, Virtual, and Self-Paced training based on your team's needs.
- ✦ **Centralized Management:**
Easily track credits, usage, and training participation through the MyCellebrite Community Portal.
- ✦ **Scalable for Large Agencies:**
Manage one wallet for the entire organization or assign multiple wallets across different departments.
- ✦ **Seamless Access to Training:**
Quickly enroll in public courses or allocate credits to specific training paths.
