

Digital Intelligence Decision Flow

Start

First stop: the lab. Give examiners the essentials — case details, timeframe and data types that matter.

Do investigators have their own tech to analyze and investigate digital evidence from multiple devices?

NO

YES

Does the lab have extra time?

Pathfinder 

Is it Cellebrite Pathfinder?

NO

YES

NO

YES

Full pull: every byte gets pulled, no filter.

If it's not getting you answers fast... Pathfinder can.

Pathfinder. Get a demo.

Nice! Lab pulls exactly what you asked for. Fast lane unlocked.

Extra deep dive and analysis coming your way (just not today).

UFRDs hot off the press!

~Calendar flips~

Dive in! Can you weave the who, what, when, how and why into a strong case narrative?

Extraction complete. UFRDs delivered! 📁

Bring your coffee and highlighters. Manual review marathon ahead.

Shortcut Available: Pathfinder. Get a demo.

YES

NO

Nice work, detective! Hand it to the lab for final proof-check.

Gut says more clues are hiding inside the device?

NO

YES

Validation station: Lab to confirm it all stands strong + report prepped for court.

Cross-check time! Compare against other devices.

Partner up: lab digs where you point.

Is your case courtroom-ready yet?

Cold case vault: Stored data might spark something new.

Lab pros fire up the heavy-duty tech (think Inseyets).

Get Inseyets Now

Case file wrapped, DA gets the playbook.

Missing a piece? Rewind and keep investigating. All materials are waiting for you in Pathfinder.

Got the smoking gun you were after?
