

Digital Evidence Reality Check

Today, **90%** of criminal cases include digital evidence.
98% of prosecutors say it is pivotal.

Digital Evidence is the new DNA

Is your agency equipped to handle digital evidence effectively?

Ask Your Investigators

- Are you satisfied with how long it takes to get evidence back from a cell phone?
- Are you certain EVERYTHING of evidentiary value is being recovered from the phone?
- Are you able to open and review digital evidence reports in a timely manner?
- Are you confident the chain of custody with digital evidence is being preserved?
- **Yes or No?** The answers reveal your agency's digital readiness.

Public safety is evolving. Is your agency ready?

From timely access to actionable insights, Cellebrite helps your agency manage digital evidence with speed, integrity, and clarity, powered by cloud and AI.
